

# ➤ 105-Series Numerical Scoreboard

➤ The 105 series clock system is a compact clock system for fixed installation in sports halls and arenas.

The clock can easily be mounted on walls or in the ceiling. It can display time and also temperature as an option. Several clocks can be controlled from a central.

The 105 series clock is also compatible with the Swiss Timing Saturn Control Box which is used to control results and scoreboard during matches.

The 105 series clock is a popular extra to have in corridors and in locker rooms. There displaying the game time or counting down

when games are between periods. Otherwise displaying ordinary daytime.

The 105 series clock has got 4 digits that are 105 mm in height. Clocks can also be ordered in a two sided version with clock displays on both sides, ideal for ceiling mounting.
